## Product Description

### Factory Anti-Hair Loss Treatment Product Way 316606 Treat Hair Loss

WAY-316606 is a potential new treatment for hair loss. It is an inhibitor of the protein sFRP-1. sFRP-1 acts as a modulator of Wnt pathways. The Wnt pathways play a large role in the transcriptions of genes which then leads to how the genes are expressed. Cell differentiation typically occurs in the dermal papillae (DP) near the base of the hair follicle. During this period of growth, proteins such as sFRP-1 are produced throughout the protein. Overexpression of sFRP-1 during this phase can lead to structural defects in the hair strand.

Since the Wnt pathway plays an important role in cell determination, researchers have begun to examine what long lasting effects exist when the Wnt pathway is blocked by sFRP-1. One of the primary concerns is that with the Wnt pathway inhibited, it will not be able to modulate the activity of the protein -catenin, specifically in the hair follicle bulbs. In order to determine the magnitude of the inhibitory effects Wnt signaling has on -catenin, researchers Hawkshaw et. Al treated a hair follicle for 48 hours with an inhibitor of Wnt production-2 (IWP-2). By treating the follicle with IWP-2, there was a drastic decrease in the transcription of axis inhibition protein 2 (AXIN2) and lymphoid enhancer binding factor 1 (LEF1), both of which promote the canonical activation of -catenin. This indicates that Wnt pathway signaling is an important factor of -catenin activation in the hair follicle.

## I Company Profile

Xingtai Xinzhou Technology Co., Ltd.

### **Xingtai Xinzhou Technology Co., LTD.**

Xingtai Xinzhou Technology Co., Ltd. was established in 2022 with strong research and development capabilities and superb synthesis technology, as well as advanced quality control measures. Effectively promote the joint venture and cooperation with the major enterprises, manufacturers, with the idea of industrial development to serve the society and the majority of users. We always adhere to the market demand as the orientation, constantly synthesizing new high-tech chemical products and medical intermediates, mainly exported to the United States, India, South Africa, Nigeria and other countries and regions, has a wealth of export experience, to ensure transportation safety, can let each customer as soon as possible to safely receive the goods.

## I Our Advantages

Xingtai Xinzhou Technology Co., Ltd.

### Rich Experience

Our company is a professional production leading factory in China in pharmaceutical area of many years.

### Top Quality

High quality guaranteed, once any problem is found, the package would be reshipped for you.

### Fast Delivery

We have in stock, so we can delivery quickly once payment is received.

### Security Shipping

We guranteed 100% safe shipment by special lines to different cities, and double custom clearance door to door.
