

Raw Material Of Cosmetics Melatonin Powder CAS-73-31-4 Anti-Aging Antioxidant

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou, China
- Brand Name: Xingzhou
- Certification: CQA, GMP, CQC, SGS
- Model Number: 73-31-4
- Minimum Order Quantity: The minimum order is one box
- Price: Talk over with
- Packaging Details: Vials
- Delivery Time: Within 48 hours
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 kg per week

Product Specification

- Name: Melatonin
- CAS: 73-31-4
- Molecular Formula: $C_{13}H_{16}N_2O_2$
- Molecular Weight: 232.28
- EINECS: 200-797-7
- Storage Condition: -20°C
- Melting Point: $116.5-118^{\circ}\text{C}$ (lit.)
- Boiling Point: 374.44°C (rough Estimate)
- Density: 1.1099 (rough Estimate)
- Acidity coefficient (pKa): 16.26 ± 0.46 (Predicted)
- Refractive Index: 1.6450 (estimate)
- Flash(ing) Point: 9
- Highlight: **Antioxidant Melatonin Powder, Cosmetic Grade Melatonin Powder**

Product Description

Melatonin is an indispensable natural hormone in the human body, which controls and affects the secretion of different hormones. When melatonin is reduced in the body, various functions of the human body will be affected, and various diseases will follow. Studies have shown that the secretion of melatonin in the human body begins to decrease after middle age, and by old age, its secretion has been slightly abnormal. Early intake and supplement of sufficient melatonin can improve the function of the endocrine system, improve immunity, improve anti-tension and antioxidant functions, improve sleep, slow down the aging rate of the human body, and slow down the degeneration rate of ; Melatonin can also help prevent and treat cancer, especially for chronic insomnia.

Melatonin can be widely used in health food, medicine, all kinds of cosmetics, nourishing and nursing products. Function: 1. Melatonin freckle, natural whitening: melatonin can make the skin white. It can regulate the endocrine of the human body, remove dark spots, age spots, melasma, pregnancy spots and pigmentation caused by sun radiation, whitening and moisturizing the skin, and restoring the youthful style. 2. Effectively improve sleep: Chemicalbook when supplementing melatonin can effectively improve sleep quality. 3. Prolonging life: melatonin is the most important high-efficiency endogenous antioxidant in the brain, which has a protective effect on the brain, so melatonin is an important anti-aging hormone. Maintain and enhance function: supplementing melatonin can improve function of middle-aged and elderly people who are aging and have decreased energy, which leads to decreased desire.
